

# **The John Fisher School Photograph and Images Policy**

**Responsible:** Governors' Resources Committee

**Next Review Date:** June 2021

## **Introduction**

The school is obliged to comply with the General Data Protection Regulation (GDPR) 2018 and the Data Protection Act 1998 when it takes or publishes photographs of its students. The school will always try to act in the best interest of the students and, as far as it legally can, it will take parental preferences into account.

The Data Protection Act gives children rights over their own data when they are considered to have adequate capacity to understand. Most children will reach this level of understanding at around age 12. For this reason, for most students in a secondary school, it will normally be up to the individual child to decide whether or not to be photographed. At The John Fisher School parents/carers of students in Year 7 will be asked to give consent for photographs. For all other students it will be assumed that they have the capacity to make the decision for themselves. However, parents/carers will still have the opportunity to express a preference in this matter.

If you wish to express a preference for the school to avoid taking or publishing photographs of your child in certain circumstances, then please indicate your preferences using the attached form. If no preferences are expressed, then we will act in accordance with the principles expressed in this policy.

Ordinarily the following rules will apply to photographs in this school:

## **Photographs for Internal Use**

- The school will take photographs for its own use. Usually these will be unnamed photographs and will generally be for internal school use but may also include photographs for publication, such as photos for the prospectus, or to show as slides at an event for parents/carers. Unnamed photographs may also be used on display boards which can be seen by visitors to the school.
- When the photograph is taken, the students will be informed that a photograph is being taken and told what it is for so that they can object if they wish.
- If the school wants to use named photographs, then it will obtain specific consent first. For most students this will be student consent as explained above but parental wishes will be taken into account.

## **Media Use**

- The school will give proper consideration to the interests of its students when deciding whether to allow external organisations to take photographs or to film.
- When the media are allowed to be present in school or at school events, this will be on the condition that they observe this policy.
- Where the media are allowed to be present at a particular event the school will make sure that students and their parents/carers are informed of the media presence. If no objection is received, then the school will assume that unnamed photographs may be published.

- If the media entity wants to publish named photographs, then they must obtain specific consent from those students with capacity to consent or the parents/carers of those without capacity. The school will require the media entity to check with the school before publication so that the school can check that any objections have been taken into account.

### **Family Photographs at School Events**

- It shall be at the discretion of the school whether photographs may be taken at a school event.
- Family and friends taking photographs for the family album will not be covered by Data Protection legislation.
- Where the school decides to allow such photography, the family and friends will be asked not to publish any photographs showing children other than their own on the internet.
